

SHE Program

Comprehensive maternal health services for pregnant women recovering from substance use.

SHE can help you and your baby as you work toward a path to recovery.

Services are designed to help substance exposed infants and mothers. SHE can help you create a healthy future for yourself and your baby.

Services include:

- prenatal, postpartum, & other medical care
- safe and sober housing resources
- doula services & delivery plan
- food, nutrition, WIC
- parenting education & infant care
- domestic violence support
- workforce development
- transportation
- legal services

SHE is an open referral program. Referrals are accepted from all partners and organizations. Self referrals are accepted. Call today to connect to services to help you and your baby.
